Super Tough Construction

High resistance to impact makes the **Beta+** tank ideal for rocky strata conditions.

No more handling worries!

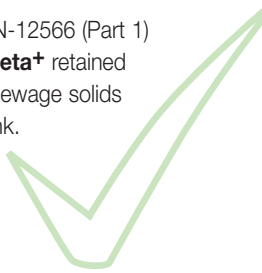

Shallow Dig

The squat shape of the **Beta+** means minimal excavation and shallow-dig. High structural strength means concrete backfill is only required in 'wet sites'.

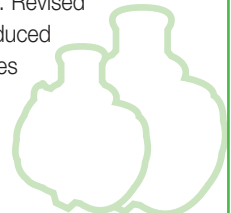

Proven Performance

Under EN-12566 (Part 1) testing **Beta+** retained 99% of sewage solids in the tank.

Simpler Range

Beta+ is a septic tank designed for modern living. Revised sizing and reduced range simplifies selection and stocking.
